i love jeanZ....z2 JEANS...BE YOUR OWN STYLIST.

This story was published on July 20th, 2009

Z² Jeans Co. is a custom jeans manufacturer for individuals; we have been present online for about 2 years now. On their site the average person no matter the body type can completely design their own jeans. In 2008 we extended this service to up and coming clothing lines, where we offered cut and sew service for their lines. (For those who aren't familiar with cut and sew, it means, the garment is made completely into your design, they purchase the fabric from the buyers choice cut then sew it.) Soon after, they began producing tees, polo's, bags, caps, hoodies, and the list goes on.

For More Information on Z² Jeans Co. visit their website @
